### CRYPTO-EXCHANGE IN MOBILE APP

Purchase Cryptocurrency at the click of a button, using only your bank card details. The exchange platform is designed especially for mobile devices and features Face ID and Touch ID technology for added security.

### ALTMESSENGER WITH CUSTOM STORE

Our crypto-messenger feature allows you to keep in touch with all your contacts, anytime, anywhere. Start a private chat or create public groups and channels, and even add items within the application and sell them for any cryptocurrency. It's convenient, easy!

### SECURE SMART SAFE

AltSafe is a multi-currency wallet that displays real-time account balances using push notifications. We plan to introduce a «Warm» wallet, which combines the advantages of Hot (Online) and Cold (Offline) wallets.
